

FARM TO HOME

SANGHAM ORGANICS NOW IN YOUR OWN NEIGHBOURHOOD!

Understanding the urban needs, *Sangham Organics* came up with the 'Mobile Van' service for urban customers who can now avail its authentic organic products with more convenience.

This mobile market will not only make shopping easy but also bring to you the 100% organic products grown by DDS' farmers in Zaheerabad region directly from their farms to your homes.

This attempt of DDS is to genuinely promote consumption of millets and other food crops grown through organic and bio diverse farming that are rich in nutrition, among urban population who are often prone to high level adulterated food products available in mainstream markets.

The mobile Van is intended to reach to customers across the Hyderabad, Secunderabad and Sangareddy where it will be stationed every week at various locations. See below for details.

Sangareddy
